

MOD TOOLS

Lucy L Mauries
Sep-Dec 2025

**A body of
tool
additions
and
accessories
for the
modern
craftsperson**

MOD

**The world of
everyday carry
setups and tool
brands is a very
traditionally
masculine
space. The focus
rests on
function and
seemingly
tiptoes around
fashion,
prioritizing a
very specific
look based on
mechanics and
use.**

MOD

MOD is made to embrace stylistic beauty in functional objects. Many of my everyday tools I felt had so much room for a different look, something that didn't fear being perceived as feminine.

MOD

As more women are doing manual labor jobs and more women are carrying tools on the daily, we shouldn't be afraid of tools looking more feminine.

MOD

**The world is being
modified and
modernized, and our
tools should be too.**

w/ insert**

StudSeekers

CoverRoll

HipRig

SlingBack

ToolTote

Tote bag for easy and organized transportation of tools and personal items.

Internal tool pocket is removable with various pockets for storage.

SquareTape

Measuring tape with a flat side and squared back for easy right angle marking.

Curved top contoured for softer skin contact and clip for easy wearability.

SlingBack

Additions to the Milwaukee Fastback Compact Knife better attuned to ergonomics of the hand.

The classic knife is reimagined as a smooth contoured shape.

StudSeekers

A set of three bullet shaped stud finders in a studded leather sleeve.

Made of high-powered neodymium, each bullet attaches to metal studs or to screw heads in a wall.

ClearLine Levels & Rulers

Crystal clear engraved levels and rulers that allow you to see and make exact markings flat on a surface.

The Levels have canvas sleeves for scratch and fall protection.

CoverRoll

Nylon pouch for hand tools, writing utensils, and other carefully considered items to be folded up or rolled in a canvas lining and taken wherever.

Two levels of canvas pockets with a fold-over cover and snap closure.

HipRig

Heavy canvas structure with leather accents and metal hard points. A tool belt reimagined with a removable saddlebag style pouch for easy tool deployment and layout.
